## ACRONYMS

---

Acronym	Meaning
AJK	Azad Jammu Kashmir
ANF	Anti Narcotics Force
ANP	Awami National Party
AQ	Al Qaeda
AQIS	Al Qaida Indian Subcontinent
ASWJ	Ahl-e-Sunnat-Wal-Jamaat
BLA	Balochistan Liberation Army
BLF	Baloch Liberation Front
BLT	Baloch Liberation Tigers
BRA	Baloch Republican Army
BRAS	Baloch Raji Ajoi Sangar
CTD	Counter Terrorism Department
FATA	Federally Administered Tribal Areas
FC	Frontier Corps
FIA	Federal Investigation Agency
GB	Gilgit Baltistan
ICT	Islamabad Capital Territory
IED	Improvised Explosive Device
IS	Islamic State
JI	Jamaat-e-Islami
JSQM	Jeay Sindh Qaumi Mahaz
JUIF	Jamiat Ulema-e Islam
KP	Khyber Pakhtunkhwa
LeI	Lashkar-e-Islami
LeJ	Lashkar-e-Jhangvi
MQM	Muttahida Qaumi Movement
OGDCL	Oil and Gas Development Company Limited
PMLN	Pakistan Muslim League Nawaz
PPP	Pakistan People's Party
PSX	Pakistan Stock Exchange
PTI	Pakistan Tehreek-e-Insaaf
PTM	Pushtun Tahaffuz Movement
RAW	Research and Analysis Wing
SeM	Sipah-e-Muhammad
SHO	Station House Officer
SRA	Sindhudesh Revolutionary Army
SSG	Special Service Group
TNT	Trinitrotoluene
TTP	Tehreek-e-Taliban Pakistan

## CASUALTIES OF TERROR ATTACKS AND COUNTER-TERROR OPERATIONS

Pakistan had lost 600 lives to violence by the end of 2020. Among the wounded were 518 persons. The ex-FATA region emerged as the worst hit by violence, where 191 persons died. This was followed by Balochistan (138), KP (122), Sindh (92), Punjab (40), Islamabad (10), and GB (7) (see table 1).

Although Balochistan lost fewer people than ex-FATA, the total number of casualties was higher in the province. Balochistan and KP (including FATA) recorded 75% of the total fatalities from violence. Sindh reported 15% of the fatalities. Punjab and Islamabad combined, recorded only 8% of total fatalities.

Province/Region	Fatalities	Injuries	Casualties
Balochistan	138	171	309
Federally Administered Tribal Areas (FATA)	191	77	268
Khyber Pukhtunkhwa (KP)	122	115	237
Sindh	92	88	180
Punjab	40	64	104
Islamabad Capital Territory (ICT)	10	3	13
Gilgit Baltistan (GB)	7	0	7
<b>Total</b>	<b>600</b>	<b>518</b>	<b>1118</b>

Compared to last year, Punjab witnessed a greater than 50% drop in violence. Followed by Balochistan where a 39% drop was experienced. Violence in KP decreased by 18% and in Sindh by 6%. The aggregate drop in violence in the country was 12%.

Despite such a significant drop in overall violence across the country, the most affected regions – ex FATA, KP, and Balochistan reflected a rise in the percentage of total violence this year. In 2019, these regions had suffered 71% of the total fatalities compared to 75% this year; a grim reaffirmation of security analysts hinting at militants regrouping in these areas.

Table 2: Fatalities from terror/counter-terror by province/region – 2019 vs. 2020			
Province/Region	2019	2020	Percentage Change
Balochistan	226	138	-38.94%
Federally Administered Tribal Areas (FATA)*	117	191	63.25%
Khyber Pukhtunkhwa (KP)	148	122	-17.57%
Sindh	98	92	-6.12%
Punjab	82	40	-51.22%
Islamabad Capital Territory (ICT)	7	10	42.86%
Gilgit Baltistan (GB)	0	7	n/a
Azad Jammu and Kashmir (AJK)	1	0	-100.00%
<b>Total</b>	<b>678</b>	<b>600</b>	<b>-11.50%</b>

Monthly data on fatalities also showed a continuous pattern of a double-digit declining trend during the whole year, though there were exceptions during certain months.

Table 3: Fatalities by month – 2019 vs. 2020			
Month	2019	2020	Percentage Change
January	80	53	-33.75%
February	49	54	10.20%
March	64	33	-48.44%

---

## Victims of terror attacks and counter-terror operations

---

Civilians and security personnel suffered the most at the hands of outlaws. They accounted for 67% of the total fatalities during 2020. Outlaws killed during the year were around 33%. Compared to last year, outlaws' fatalities went up by 10%: 23% in 2019 versus 33% in 2020. A significant decline was observed in civilians' fatalities. There was a reduction of 9%; down from 49% to 40%. Fatalities of security personnel and government officials saw a minor drop of 2% (table 4).

## SECURITY OPERATIONS

### Provincial data on security operations

In 2019 – due to acceleration in operations by security agencies – there were a total of 160 fatalities. In contrast, 234 casualties from security operations resulted in 2020 (228 persons died and 6 were injured), a rise of about 40%. Ex-FATA and KP were the main targets of these operations. 134 persons lost their lives and 6 were wounded. This was followed by Balochistan (35), Punjab (27), Sindh (23), GB (7), and Islamabad (2) (see table 5).

Table 5: Casualties from security operations – 2020			
Province/Region	Fatalities	Injuries	Casualties
Federally Administered Tribal Areas (FATA)	81	0	81
Khyber Pukhtunkhwa (KP)	53	6	59
Balochistan	35	0	35
Punjab	27	0	27
Sindh	23	0	23
Gilgit Baltistan (GB)	7	0	7
Islamabad Capital Territory (ICT)	2	0	2
<b>Total</b>	<b>228</b>	<b>6</b>	<b>234</b>

#### Nature of security operations

Security agencies carried out 101 operations against outlaws; 5 of these failed because of swift retaliations. 11 security personnel died and 3 were wounded during the process. Another 8 security operations were suspected of having been misled or miscalculated by the security personnel, resulting in death of 12 persons. Families of the victims reacted with condemnations and litigations. Last year, 10 security operations were met with failures and 16 were regarded as suspect.

Table 6: Nature of security operations - 2020			
Type	Fatalities	Injuries	# of operations
Security operations	205	3	88
Security operations failed	11	3	5
Security operations suspected	12	0	8
<b>Total</b>	<b>228</b>	<b>6</b>	<b>101</b>

Among the victims of security operations, most were outlaws: criminals, insurgents, militants, and political criminals. They accounted for 81% of the total fatalities. Security personnel accounted for 14% and 5% were civilians (table 7). 32 security personnel were killed in 2020. Fewer security personnel suffered in 2019, comparatively. Last year, the fatalities of outlaws were 73% while the remaining 23% were civilians and security personnel - 15% and 12% respectively.

Civilians ■

Annual Security Report 2020 - The Center for Research and Security Studies

Security personnel killed 172 outlaws during operations in 2020. 108 were militants, 34 insurgents and the remaining 30 were dacoits and other criminals. The identifiable militants were from TTP (20), Islamic State (7), AQIS (3), and LeJ (1). One suicide bomber was killed before he could execute his plan. His identity was undeclared. Only 13 insurgents were identified to be affiliated with BLF (8) and BRA (5). Among the dacoits, 7 belonged to Narejo Gang and 3 to Jagirani Gang (from Kucha area of Larkana and Sukkur). Some security operations faced severe retaliations from the outlaws. These resulted in the deaths of 16 army personnel, 10 police officials, 1 SSG commando and 1 FC person.

#### Militants, criminals, and foreign spies arrested in 2020

---

A large number of militants, insurgents and criminals were arrested in 2020. Among criminals, the arrested were from dacoit gangs and sectarian outfits. Most of the militants arrested belonged to Tehreek-i-Taliban Pakistan (TTP), followed by Al-Qaeda (AQ), Al-Qaeda in Indian Subcontinent (AQIS), Daish or Islamic State (IS), Lashkar-e-Islami (LeI) and Lashkar-e-Jhangvi (LeJ). The insurgents arrested during this year belonged to Balochistan Liberation Army (BLA), BRAS, and Sindhudeh Revolutionary Army (SRA) (table 9). The arrests of these outlaws are a reflection of the variety of militancy that has been resurfacing in the country.

<b>Table 9: Militants, insurgents, and criminals arrested - 2020</b>

#### Foreign outlaws and agents arrested during 2020

Foreign militants and spies continued to cause discord and disruption in the country. Majority of them were linked to Afghanistan based gangs and the Research and Analysis Wing (RAW) of India. As listed (in table 10) below, some of the RAW agents were political workers of Muttahida Qaumi Movement (MQM). MQM was once the second largest political party of Sindh province.

## TERROR ATTACKS IN 2020

### Provincial data of terror attacks

Terror attacks caused 60% more fatalities than the security operations. Nearly 75% of the total fatalities from terror attacks were reported from KP, ex-FATA and Balochistan. Sindh recorded 18% fatalities, followed by Punjab (3%), and Islamabad (2%) (see table 11).

Table 11: Casualties from terror attacks - 2020			
Province/Region	Fatalities	Injuries	Casualties
Balochistan	103	171	274
Former Federally Administered Tribal Areas (FATA)	110	77	187
Khyber Pukhtunkhwa (KP)	69	109	178
Sindh	69	88	157
Punjab	13	64	77
Islamabad Capital Territory (ICT)	8	3	11
<b>Total</b>	<b>372</b>	<b>512</b>	<b>884</b>

More than 60% victims of terror attacks were civilians and 35% were security and government officials. The remaining 5% were insurgents and militants. There was no change in terms of percentage of the victims when compared with the last year (table 12).

Table 12: Fatalities of terror attacks by affiliation - 2020

---

## Nature of terrorism

---

Target killings were a major cause of fatalities from violence this year. Insurgents as well as militants also resorted to target killings this year. TTP claimed responsibility for targeting four security personnel and two civilians. Three civilians were gunned down by the insurgent outfit – BRAS<sup>1</sup>. More than 100 incidents of terrorism (use of explosives) and militants' attacks were recorded. Seven persons died in a rivalry incident between Jaish-ul-Adl and Maqbool Shambezai's death squad over drugs issue. This occurred in the Parom area of Panjgur.

Three security personnel and a civilian died in five incidents of cross border attacks that were carried out by militants based in Afghanistan. Two incidents of toy bomb explosions also took place. Anti-polio vaccination sentiments continued triggering acts of violence against the polio vaccinators (table 13).

Table 13: Casualties of terror incidents by attack type - 2020			
Terror attacks	Fatalities	Injuries	Number of incidents
Target killings	169	43	148
Terrorism	121	383	69
Militant attacks	69	68	32
Others	9	11	5
Cross-border attacks	4	6	5

<b>Total</b>	<b>372</b>	<b>512</b>	<b>260</b>
<b>Note:</b> includes militant rivalries, accidental deaths, and sectarian violence.			

---

<sup>1</sup> BRAS is an alliance of four Baloch militant groups, Baloch Raji Ajoi Sangar (BRAS).

Table 13: Casualties of terror incidents by attack type - 2020

Annual Security Report 2019 - The Center for Research and Security Studies

#### Fatalities of security personnel from terror attacks

Among the security and government officials, Pakistan Military officials such as army, FC, Rangers, ANF soldiers, and Levies were the main targets of terror attacks. Around 170 terror attacks against the military were reported this year, resulting in the deaths of 88 personnel and injuring another 90. 41 police officials also lost their lives in 76 terror attacks. A significant drop in the fatalities of police officials was observed this year in comparison with the last year's figures (70 deaths in 2019 vs. 41 in 2020) - table 14.

Table 14: Casualties of security/government officials by affiliation - 2020			
Organization/Affiliation	Fatalities	Injuries	Casualties
Army	51	48	98
Police	41	35	76

<b>Total</b>	<b>131</b>	<b>118</b>	<b>249</b>

Table 14: Casualties of security/government officials by affiliation - 2020

Annual Security Report 2020 - The Center for Research and Security Studies

#### Fatalities of outlaws from terror attacks

Timely reaction by security officials and infighting between militant groups as well as insurgents killed numerous outlaws. Four BLA insurgents were executed during the security operation that was carried out in response to an attack on the Pakistan Stock Exchange building in Karachi. In North Waziristan (Ex-FATA), two militants were killed in exchange of fire with security officials (table 15).

Table 15: Militant/criminal/insurgent victims of terror attacks			
Victims	Fatalities	Injuries	Casualties
Ghulam Jan group	0	1	1

Militants - unk	2	0	2
BLA	4	0	4
<b>Total</b>	<b>13</b>	<b>5</b>	<b>18</b>

#### Fatalities of civilians from terror attacks

Civilians were targeted in various different settings. Among the dead were tribal elders, football players as well as a student. A mysterious blast in a house near Gulshan-e-Iqbal, Karachi took nine lives. It was later discovered to be TNT explosion (raising suspicion as to why such explosive material was stored in that house). A university student and anti-drug peddler were shot dead in the town of

Nushki. Two people were killed and eight injured in a powerful explosion near a football stadium in Panjgur.

<b>Table 16A: Civilian victims of terror attacks - 2020</b>

---

#### Methods of terror attacks

---

A significant drop was observed in terror attacks this year. They came down to 260 from 376; nearly a 30% decline. Most frequently used methods of violence involved firearms, lethal explosives like bombs, IED's, landmines, hand grenades, mortar and rocket attacks and anti-aircraft guns. Armed and suicide attacks were also recorded (table 17).

<b>Table 17: Fatalities by methods of violence - 2019 vs. 2020</b>

<b>Total</b>	<b>85</b>	<b>166</b>	<b>0</b>	<b>34</b>

Table 18:  
Casualties claimed by  
militant outfits - 2020

#### Casualties from terror attacks and counter-terror operations in Balochistan

Data from Balochistan reveals that civilians suffered the highest number of fatalities (57) during terror and counter terror security operations. This was followed by security personnel (42). Insurgents and militants accounted for 40 deaths. Overall, a 39% decline was observed in the number of fatalities from violence in Balochistan during 2020 compared to last year (table 19).

Table 19: Casualties in Balochistan by affiliation - 2020		
Category	Fatalities	Injuries
Civilians	56	125
Insurgents/Militants	40	4
Security officials	42	42
<b>Total</b>	<b>138</b>	<b>171</b>

Table 19:  
Fatalities in  
Balochistan by  
affiliation - 2020

Annual Security Report 2020 - The Center for Research and Security Studies

Among all districts of Balochistan, Quetta lost the highest number of people from violent incidents. Panjgur, Awaran, Gwadar, Harnai and other districts followed. Although the overall number of fatalities this year decreased significantly in the province, districts like Awaran, Makran, and Mashkhel experienced more violence this year (table 20).

Table 20: Fatalities in Balochistan by district - 2020		
District	Fatalities	Injuries

#### Casualties of terror attacks and counter-terror operations in FATA

Ex-FATA region (now part of KP) - unlike other regions - experienced a substantial increase in violence in 2020. Security and government officials experienced the most injuries and deaths. This was followed by militants and civilians (table 21).

Table 21: Casualties in ex-FATA by affiliation - 2020		
Category	Fatalities	Injuries
Security/Government officials	68	47
Militants	62	1
Citizens	61	29
<b>Total</b>	<b>191</b>	<b>77</b>

Civilians ■

Annual Security Report 2020 - The Center for Research and Security Studies

The security situation continued to worsen in most districts of ex-FATA - with North Waziristan, Bajaur, and South Waziristan once again appearing to be the highest security risk areas in the country. Violence-related fatalities grew in numbers throughout the ex-FATA region (table 22).

Table 22: Fatalities in ex-FATA by district - 2020		
District	Fatalities	Injuries
North Waziristan	130	28
Bajaur	29	18
South Waziristan	11	10
Kurram	8	19

Mohmand	4	2
Orakzai	4	0
<b>Total</b>	<b>191</b>	<b>77</b>

#### Casualties from terror attacks and counter-terror operations in KP

KP experienced a rather peaceful year. Civilians were most affected (50 dead). Security personnel reported the lowest (24) deaths, while 48 militants/criminals were reported dead. There was a 16% drop in violence in KP – excluding the now merged FATA regions (table 23).

Table 23: Casualties in KP (excl. FATA) by affiliation - 2020		
Affiliation	Fatalities	Injuries
Civilians	50	91
Militants/Criminals	48	0
Security officials	24	24
<b>Total</b>	<b>122</b>	<b>115</b>

Annual Security Report 2020 - The Center for Research and Security Studies

District-level violence witnessed a shift in its occurrence in KP this year as Peshawar replaced D.I. Khan showing the highest number of fatalities from violence. Lakki Marwat, Kohat and Tank were other three districts that also experienced a sudden surge in violence. A downturn in violence was observed in two districts - Dir and Bannu (table 24).

Table 24: Fatalities in KP (excl. FATA) by district - 2020

#### **Casualties from terror attacks and counter-terror operations in Punjab**

---

Punjab province had a unique security situation compared to all other provinces. Not only were the total fatalities from violence lowest in Punjab, the outlaws suffered most of the fatalities. The lowest number of victims of violence was security personnel – an ideal security situation for the common people and commercial entrepreneurs (table 25).

<b>Table 25: Casualties in Punjab by affiliation - 2020</b>		
<b>Affiliation</b>	<b>Fatalities</b>	<b>Injuries</b>
Citizens	12	60
Security officials	6	4
Criminals/Insurgents/Militants	22	0
<b>Total</b>	<b>40</b>	<b>64</b>

Table 25:  
Casualties in  
Punjab by  
affiliation - 2020

Annual Security Report 2020 - The Center for Research and Security Studies

A shift in violence was also observed in Punjab. Rawalpindi replaced Lahore as the district with highest fatalities in the province, though the number of victims was lower than 2019. No fatalities from violence were reported last year in districts like Bahawalpur, Jhang, Attock, Muree and Rahim Yar Khan (table 26).

Table 26: Fatalities in Punjab by district - 2020		
District	Fatalities	Injuries
Rawalpindi	9	57

<b>Total</b>	<b>40</b>	<b>64</b>

A marginal drop in violence was observed in Sindh this year. More than 55% of all victims of violence were civilians. They belonged to various strata of the society like media, political and religious party activists, and religious persons. Sindh and KP are the two provinces where such a large variety of civilians were targeted by the outlaws. Criminals – who were executed during security operations – were the highest in number. Followed by insurgents, militants, and political criminals. The least affected from violence in Sindh were security officials as their percentage in total fatalities was 15% only (table 27).

Table 27: Casualties in Sindh by affiliation - 2020		
Affiliation	Fatalities	Injuries
Civilians	52	81
Criminals	26	0
Security officials	14	7
<b>Total</b>	<b>92</b>	<b>88</b>

#### Casualties from terror attacks and counter-terror operations in Islamabad, AJK, and GB

---

Azad Jammu and Kashmir (AJK) suffered no violence this year. Gilgit Baltistan (GB) and Islamabad Capital Territory (ICT) suffered 7 and 8 fatalities from violence this year, respectively. Security officials were the highest victims of violence in GB while Islamabad witnessed more civilian fatalities than government and security officials. No outlaws were eliminated in both of these regions - reflecting a poor security situation (table 29).

Table 29: Fatalities in AJK, GB, and ICT by affiliation - 2020

### SECTARIAN VIOLENCE IN PAKISTAN - 2020

---

Sectarian violence assumed new formations and dimensions this year and targeted several religious communities. People belonging to Sunni community - for the first time in last several years - became the highest victims of sectarian violence this year. Even youngsters and close relatives of the victims took the law into their hands by resorting to acts of violence on religious grounds. While all forms of violence declined this year, sectarian violence went up by 25% (Table 30).

Table 30: Fatalities from sectarian violence by religion/sect - 2020		
Religion/sect	Fatalities	Injuries
Ahmadi	4	3
Christian	2	3
Hindu	2	0
Ismaili	1	0
Shia	7	0
Sunni	39	77
<b>Total</b>	<b>55</b>	<b>83</b>

Table 30: Fatalities from sectarian violence by religion/sect - 2020

Annual Security Report 2020 - The Center for Research and Security Studies

Most regions of the country witnessed sectarian violence with Balochistan appearing to have lost the highest number of persons. Followed by KP, Sindh, Punjab and FATA. A sectarian religious party, Ahl-e-Sunnat-Wal-Jamat (ASWJ), became a target of violence this year and lost around 8 persons including 2 policemen when their procession in honor of Hazrat Abu Bakr suffered a suicide attack in Quetta on 18 February 2020. After JUIF, ASWJ is another religious party that became a target of suicide attack.

In FATA, Saifur Rehman, SHO, was killed when he was offering evening prayer at a local mosque in Miranshah. A Christian journalist was shot dead in his house in D.I. Khan. A lecturer at the Agriculture University of Peshawar murdered an Ahmadi professor, Naeemuddin Khattak, because of some arguments on religious subject. The cousin of Ahmadi professor, Mubashir, was also suspected in this murder. A teenage boy gunned down Ahmadi doctor, Dr Tahir Mahmood, and injured 3 others at their home in Nankana sahib.

Three other persons were also killed on religious ground in the country that are not included in this report because the attackers had blamed their victims of having committed blasphemy – a charge highly disputed by the authorities. A teenager killed an Ahmadi while a bank manager was killed by the security guard of the bank and another security guard (Hafiz-e-Quran) was killed by his own colleague. These three incidents reflect how deeply our society is entrenched into religious extremism and the more we delay in addressing this issue the more complicated it would become.

A bomb blast targeted the worshippers at Madrassa Darul Uloom Al Sharia while they were offering Maghrib prayers in Quetta, Sariab Road. Hizbul Ahrar, a splinter group of the Tehreek-e-Taliban

Pakistan was reported in some regional newspapers to have claimed responsibility of this attack. A Deputy Superintendent of Police was also one of the victims of this attack (table 31).
